## Academic Projects

### 1. FirstBit Solutions Project

<b>Project Title</b>	<b>Hotel Website</b>
<b>Technologies Used</b>	HtmI5,Css3,Bootstrap,Sass,Javascript
<b>Description</b>	The Purpose of this website is to make tasks easier for owner as well as customer.Basically this website completely describes whole hotels Management system where customer able see which type of dishes has been added in todays menu .Customer can also know about chef and there also login feature for customer.Menucard for checking availability for foods.its has Query for form for any customer query regarding food.

### 2.Final Year (UG)

<b>Project Title</b>	SQL Injection analysis, Detection and Prevention
<b>Technologies Used</b>	SQL,PHP,Java
<b>Description</b>	Web sites are dynamic, static, and most of the time a combination of both. Websites need protection in their database to assure security. An SQL injection attacks interactive web applications that provide database services. These applications take user inputs and use them to create an SQL query at run time. In an SQL injection attack, an attacker might insert a malicious SQL query as input to perform an unauthorized database operation.

### 3. Final Year Project(Diploma)

<b>Project Title</b>	<b>Hostel Management System</b>
<b>Technologies Used</b>	Java, Ms access
<b>Description</b>	Hostel Management system create easy way to store student information and it is better than older way like carrying lot of papers.Hostel Management system has unique feature when we enter enrollment number we can see all information about student like when he took admission in hostel how much he paid hostel fees like that.if some student lives the hostel this system also provide DELETE record feature.All data is saves in Ms access files.

### 4. Social Blog Website(First Bit Project)

<b>Project Title</b>	<b>Social Blog Website</b>
<b>Technologies Used</b>	Html5,css3,Angular Js,Bootstrap5
<b>Description</b>	This is Professional Blog website where you can post your own Blog post. Also it has login feature for admin and also has guest login for demo purpose. It has fully CRUD feature functionality which make this blog professional . Visitors can search their interested post using search post field and they can also subscribe this site for future post.

### 5.Task Manager App(First bit Project)

<b>Project Title</b>	<b>Daily Task Manager</b>
<b>Technologies Used</b>	Html5,css3,ReactJS,Bootstrap
<b>Description</b>	I have create 'daily task react app' for set tasks day by day.we can add day to day task's or important meeting's to make sure that don't miss  This App has full CRUD feature.
